

TARIFF ANALYSIS AUDIT

ENSURING THE RIGHT RATE

Kelcroft's expertise could save you thousands of dollars without installing complex or costly equipment. Kelcroft's tariff audit identifies problems today before they become costly mistakes tomorrow.

Your electricity tariff is the rate at which the utility charges you for electrical power. Perhaps your facility or your power consumption has changed, or you inherit a new property - but are you using the right tariff?

Kelcroft evaluates your current power usage to find the optimum tariff for the facility, once our

analysis is complete, we identify which facility needs to switch tariff and you enjoy the cost savings without flicking a switch.

Utilities are not infallible - Call Kelcroft today our tariff audit typically saves our clients money, without capital investment.
